

Maintain Your Six Sigma Certification Using AgLearn!

AgLearn provides courses that allow learners to maintain their Six Sigma certification! And, as always, you can **add to your knowledge at no cost to you, 24/7!**

What is Six Sigma certification?

Six Sigma focuses on improving the quality of processes within an organization by identifying and removing causes of defects. Six Sigma uses a set of quality management methods and creates an infrastructure of people within the organization who are experts (“Black Belts” and “Green Belts”). Green Belts lead and execute projects that improve processes. Black Belts have a thorough understanding of Six Sigma principles and are leaders of change within an organization. To access Green or Black Belt courses, go to the Business Certifications section of the AgLearn catalog and click on the *ASQ (Six Sigma and CMQ/OE)* link.
